

# IMPORTANT UPDATE

## 2023 Broadway Construction Update

Update #1, October 11, 2023

Dear Aurora Downtown Property and Business Owners,

As you may know, the City of Aurora received a grant last year to improve and beautify Broadway Street between Benton Street and New York Street. **Phase One** of this project focuses on replacing the primary water main running along the west side of Broadway.

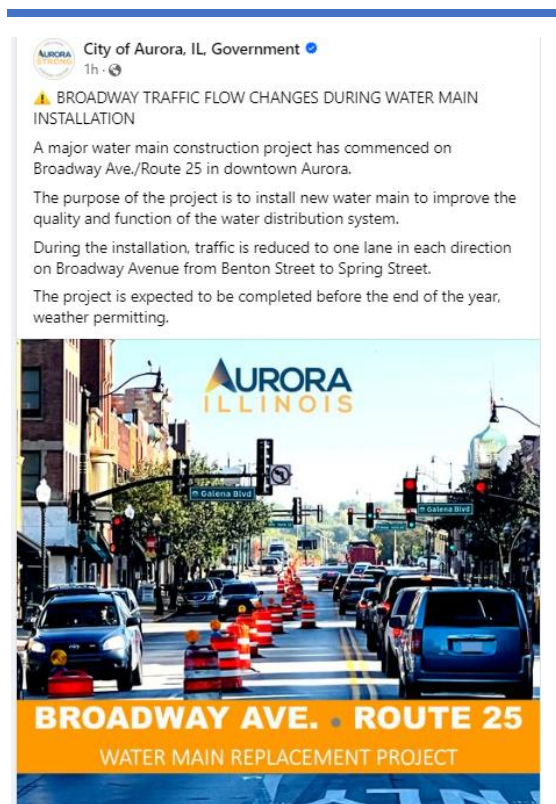

**Phase One** will start Wednesday, October 11th with new traffic patterns in place including the elimination of parking on Broadway between Benton Street and New York Street as well as lane reductions to two lanes in total – shifting the traffic to the east side of Broadway with **one lane going north and one lane going south over this 4-block area**. We anticipate this traffic pattern to be in place possibly into December. The water main replacement construction itself is scheduled to start on Monday, October 16th. After completion of Phase One, it is planned that all traffic lanes will be reopened until the start of **Phase Two**.

The City of Aurora will be placing signage along this corridor to guide the public and your consumers to available parking locations. For technical questions, please contact Kurt Muth, Engineer Coordinator for the City of Aurora at 630-701-4125 or MuthK@aurora.il.us.

I will be your in-market contact serving the property and business owners with updates as well as collecting your concerns, questions, and ideas and bringing them to the City of Aurora teams that are leading this project.

Please visit our Website for [updates](#). Thank you for your continued patience.

Tina de Chaud
