

2023 Broadway Construction -- Water Main Update

Update #7, December 4, 2023

Dear Aurora Downtown Property and Business Owners,

The contractor continues to have two crews working to expedite completion of the project in December.

- The first crew will focus on finishing the pipe installation in the E. Benton intersection this week.
- The second crew will focus on connecting water services to the new water main on S. Broadway Avenue between the E. Downer and E. Benton intersections. They will likely also make the last connection at E. New York Street finishing underground work north of Downer. Geneva Construction will be on-site the middle of the week to complete asphalt patching restoration on a large portion of the project.

For technical questions, please contact Kurt Muth, Engineer Coordinator for the City of Aurora at 630-701-4125 or MuthK@aurora.il.us. Please visit our Website for [updates](#).

Thank you for your continued cooperation.
